

# Beginners Course

## Practice routine blueprint

### **Songs at performance standard**

(Include your favourites, ideally with a mix of songbook songs and riffs)

- -----
- -----
- -----

### **Single Note Playing (riffs, melodies)**

(Should be short and recognisable. Also include any scales or improvising you may have covered)

- -----
- -----
- -----

### **Songbook Songs**

- -----
- -----
- -----

### **Finally**

You should try a totally new song or riff every time you pick up your guitar to properly practice! But you don't have to master it, or even ever play it again. You're just practicing how to LEARN a new song/ riff!

Or you can just strum your guitar with chords e.g. in the key of G. Experiment- have fun- see what things sound like!
